**Boston, Massachusetts, March 24, 2009.** Safety Insurance Group, Inc. ### **Cautionary Statement under "Safe Harbor" Provision of the Private Securities Litigation Reform Act of 1995:**

*This press release contains, and Safety may from time to time make, written or oral "forward-looking statements" within the meaning of the U.S. federal securities laws. Forward-looking statements are not guarantees of future performance. By their nature, forward-looking statements are subject to risks and uncertainties. There are a number of factors, many of which are beyond our control, that could cause actual future conditions, events, results or trends to differ significantly and/or materially from historical results or those projected in the forward-looking statements. These factors include but are not limited to the competitive nature of our industry and the possible adverse effects of such competition. Although a number of national insurers that are much larger than we are do not currently compete in a material way in the Massachusetts private passenger automobile market, if one or more of these companies decided to aggressively enter the market it could have a material adverse effect on us. Other significant factors include conditions for business operations and restrictive regulations in Massachusetts, the possibility of losses due to claims resulting from severe weather, the possibility that the Commissioner may approve future Rule changes that change the operation of the residual market, our possible need for and availability of additional financing, and our dependence on strategic relationships, among others, and other risks and factors identified from time to time in our reports filed with the SEC, such as those set forth under the caption "Risk Factors" in our Form 10-K for the year ended December 31, 2008 filed with the SEC on March 13, 2009.*
